

# Message from **MEP Christel Schaldemose** on the occasion of **World Diabetes Day**

*On the occasion of World Diabetes Day and to celebrate the 100th anniversary of the discovery of insulin, I invite all my fellow MEPs to support the upcoming Diabetes Resolution next week. We need to reassert our political commitment to act on diabetes.*

*We need to improve the prevention and risk reduction strategies to reverse the rising number of Europeans living with diabetes and ensure equitable access to care, medicines, supplies, technologies, and education for all.*
